Pedro Parra

Senior Product & Commercial Strategy Lead

Singapore | pc.duks@gmail.com | linkedin.com/in/pedro-parra | github.com/pcduks | pcduks.github.io

Senior Product & Commercial Strategy Lead with 12+ years across Google, LinkedIn, and McKinsey in APAC. Combines high-level business strategy with hands-on agentic AI architectures and edge prototypes. Proven track record leading cross-functional teams to automate complex enterprise workflows, meet stringent regulatory standards, and deliver multi-million dollar operational gains.

WORK EXPERIENCE

Lead, Applied AI & Commercial Operations (APAC) — Google

Singapore · Feb 2026 – Present

Directing the strategy, architecture, and deployment of agentic AI systems and enterprise prototypes across APAC commercial operations.

- **Agentic platform architecture & deployment:** Defined the product roadmap and deployed a multi-tier agentic framework using stateful LLM orchestrators (APAC Commercial Insights Agent). Automated multi-source commercial analysis across 6 retail markets, cutting manual data assembly by 70% and accelerating regional decision cycles.
- **Enterprise B2B prototype roadmap:** Established an active roadmap of on-device AI prototypes for enterprise partner pitches. Architected a multimodal edge AI solution for Ather Energy field diagnostics using Gemini Nano. Designed acoustic and visual defect detection models to cut diagnostic cycle times by 40% and prevent $1.7M+ in annual operational leakage.
- **AI governance & operational scale:** Established regional AI governance, evaluation benchmarks, and operational playbooks across commercial and finance teams. Replaced manual spreadsheet analysis with auditable agent workflows, accelerating quarterly commercial planning cycles across the region.

Product Manager, Help & Education (GPay India) — 20% capacity

Singapore · Apr 2025 – Mar 2026

Directed a cross-functional squad (Engineering, Operations, Legal, UX) to reverse funnel decline and establish next-generation merchant compliance architecture.

- **Platform turnaround & growth:** Increased the merchant upgrade rate by 120% and success rate by 53% for ~245,000 merchants.
- **Complex regulatory product requirements:** Designed and launched end-to-end data localization, video recording, and geo-fencing pipelines adhering strictly to Reserve Bank of India (RBI) guidelines, de-risking high-volume merchant acquiring.
- **“AI-first verification” strategy and proof of concept:** Spearheaded the UX strategy for hybrid AI-human verification, using AI agents for objective pre-flight validation and human reviewers for subjective edge cases. Directed engineering to build a working prototype using Gemini Live for real-time OCR, liveness, and physical store verification.

Strategy & Operations Manager, APAC Devices & Services — Google

Singapore · Nov 2019 – Jan 2026

Led regional commercial governance and infrastructure modernization for a multi-billion dollar hardware portfolio across APAC.

- **Go-to-market & commercial strategy:** Shaped the APAC commercial strategy for over 10 product launches. Led annual planning and designed and implemented novel deal structures and business models that drove double-digit growth and increased profitability in key markets.
- **Team leadership & development:** Built and led the new Category Business Management (CBM) function as a people manager for one year. Hired, onboarded, and coached a team of 3, establishing the team’s vision and commercial capabilities.
- **Strategic & business impact:** Awarded top-tier impact by leading the region to the best ’22 results globally by enabling an additional ~$100M in revenue in Japan through strategic savings and optimizations.

Sales Operations & Strategy, LATAM & APAC — LinkedIn

Brazil, Singapore · May 2016 – Nov 2019

- Managed multi-regional GTM strategy for a $250M business segment; drove 40% CAGR in LATAM.

Management Consultant — McKinsey & Company

Brazil · Jan 2014 – Apr 2016

- Advised tech and telco C-level executives on market entry and operational efficiency through data-driven insights.

EDUCATION & CERTIFICATIONS

University of São Paulo – Escola Politécnica: Bachelor of Electrical Engineering

Brazil · 2008 – 2014

- Full scholarship awarded by the Brazilian Ministry of Education: Summer 2012 at University of California, Berkeley (Social Media Sciences); Fall/Winter 2012 at University of Missouri – Kansas City (Computer Engineering).

Certifications

- AI Evals for Engineers & PMs (Parlance Labs): hands-on framework for building, evaluating, and optimizing LLM applications, RAG systems, and agentic workflows
- Machine Learning & AI (IIT Bombay)
- Big Data & Social Analytics (MIT)
- Section4 Certified Product Principles

CORE SKILLS

Antigravity · Agentic Workflows · Vibe Coding · Generative AI · Multimodal Models (Gemini) · AI Evals · Product Strategy · PRD & Spec Writing · Go-to-Market Strategy · SQL · Cross-Functional Leadership · Financial Modeling

Languages: Portuguese (native), English (fluent).
